Summary

A Creative with a love for all things Design and Media, also a new Developer with a passion to learn and create full stack web applications. Adept at working independently and collaborating as a team across multiple functions. Communicative and willing to ask questions to better the team. Healthy dose of patience and willing to learn from others.

Technical Skills

Tools: HTML, CSS, JavaScript, NodeJs, React, Github, Adobe Creative Suite

Databases: MySQL, MongoDB

Projects

LoanShark | <https://github.com/DavidBuoy/loanShark>

Link to live application: <https://loaning-sharks.herokuapp.com/>

- My final project for the DU bootcamp. The concept of the application is to track different student loans.
- My responsibility was Front End and Design.
- React, MongoDB, Bootstrap Framework.

ParkBuddy 2.0 | <https://github.com/DavidBuoy/Project2>

Link to live application: <https://park-buddy-2.herokuapp.com/>

- An application that allows you to view National Parks in your state.
- My responsibilities was Front End and API Calls and Connections
- Javascript, MySQL, Handlebars, Bulma Framework

Design Portfolio | <https://www.behance.net/davidbushard>

- This is a few design projects that I have worked on throughout my Design career. Both personal projects and also for clients.

- I created all of these different projects
- Adobe Creative Suite: Mainly Photoshop and Illustrator.

Experience

Freelance Graphic Design **Buoy Design LLC**

Dec 2018 – Present
Vancouver, WA

I did freelance work for various clients for Websites and Graphic Design. Learning every day how to interact with clients and create the desired final project.

Key Accomplishments:

- Learning how to run a business.

Server and Barback **Famous Daves**

Feb 2012 – June 2020
Portland, OR

Worked as a Server and Barback. Learned valuable people skills and built relationships with customers, which lead to repeat clients. Was the lead on many large catering events for corporations and weddings.

Notable:

- Was furloughed due to COVID-19

Web & Graphic Designer **Zepplin Media**

Sept 2018 – May 2019
Vancouver, WA

Branding and creating graphics for local businesses around the Vancouver area. Was a part of a team that managed 60 social media accounts for local businesses across the Pacific Northwest.

Graphic Design **City Bible Church**

Sept 2017 – Nov 2018
Portland, OR

Was a part of the creative team that branded and built graphics for corporate service on Sunday mornings. Worked in a team setting to create and maintain content.

Graphic Design

Clark College

Sept 2015 – Sept 2017

Vancouver, WA

Worked to create social media assets as well as in house assets for the college. Helped maintain and update website keeping classes and imagery up to date. Worked in a team setting to help plan and create quarterly class booklets.

Education

Boot Camp Certificate: University of Denver, Denver, Colorado

A 6 month intensive program focused on gaining Full Stack Web Development skills in HTML, CSS, JavaScript, NodeJs, React, SQL Databases, MongoDB, Github, and Computer Science.

Associates in Applied Technology: Clark College, Vancouver, Washington

A two year degree that specialized in Graphic and Web Design. With emphasis on Adobe Suite programs.
